

# CALIFORNIA CONDOR POPULATION SIZE AND DISTRIBUTION

Aug 1, 2005

(status through July 31, prepared Aug. 5)

**TOTAL POPULATION** 278

**CAPTIVE POPULATION** 153

Los Angeles Zoo	26
San Diego WAP	27
WCBP Boise	60
Oregon Zoo	16
Mentor birds in field pens	2
Pre-release birds in field pens	22

**WILD POPULATION** 125

**California** 57

Wild-fledged	1
Southern California-released birds	21
Central California-released birds	33
Nestlings in wild nests	2

**Baja California** 13

Wild, from releases	13
---------------------	----

**Arizona** 55

Wild-fledged	2
Wild, from releases	51
Nestlings in wild nests	2

## Changes in July:

Arizona – 2 birds temporarily retrapped.

Southern California – 2 birds temporarily retrapped.

Central California – 1 bird re-released

Baja California – 4 birds released, but one was recaptured later

WCBP Boise – a captive adult bird died

## Production in 2005:

**Eggs:** 50 captive-laid and 6 wild-laid; **Nestlings:** 35 were produced in captivity, 3 were produced from wild eggs, and 1 was produced in a wild nest from a captive-laid egg.

# CALIFORNIA CONDOR POPULATION SIZE AND DISTRIBUTION

August 1, 2005

(status through July 31, prepared Aug. 5)

<b>TOTAL POPULATION</b>		<b>278</b>
<b>CAPTIVE POPULATION</b>		<b>153</b>
Los Angeles Zoo	26 (incl. 7 nestlings)	
San Diego WAP	27 (incl. 6 nestlings)	
WCBP Boise	60 (incl. 20 nestlings)	
Oregon Zoo	16 (incl. 2 nestlings)	
Mentor birds in field pens	2 (SB# 63 in Centr. CA; # 64 in Baja CA)	
Pre-release birds in field pens	22	
Southern California	2 (SB# 238, 245)	
Central California	7 (SB# 330, 332, 335, 336, 340, 345, 351)	
Baja California	3 (SB# 319, 338, 344)	
Arizona	10 (SB# 270, 287, 327, 329, 334, 337, 343, 346, 353, 354)	
<b>WILD POPULATION</b>		<b>125</b>
<b>California</b>		<b>57</b>
Flying, wild-fledged	1	
Southern California-released birds		
Flying	19	
Recaptured, temporarily held in field pen	2 (SB# 238 and 245)	
Central California-released birds		
Flying	33	
Nestlings in wild nests	2	
<b>Baja California</b>		<b>13</b>
Flying, from releases	12	
Recaptured, temporarily held in field pen	1 (SB# 323)	
<b>Arizona</b>		<b>55</b>
Flying, wild-fledged	2	
Flying, from releases	45	
Recaptured, temporarily held in field pen	6 (SB# 162, 232, 282, 302, 324, 314)	
Nestlings in wild nests	2	

## Changes in July:

Arizona – SB# 162 and 232 were temporarily recaptured

Southern California – 2 birds (SB# 238 and 245) temporarily recaptured

Central California – 1 bird (SB# 265) re-released in mid-July

Baja California – 4 birds released (SB# 321, 322, 323, 325) on July 9; # 323 was recaptured July 29

WCBP Boise – Adult, captive-raised bird (SB# 58) died on July 19

## Correction to recent reports:

Arizona – SB# 334 and 354 were transferred to the AZ release pen from WCBP Boise on May 6.

**Production in 2005: Eggs:** 50 captive-laid and 6 wild-laid; **Nestlings:** 35 were produced in captivity, 3 were produced from wild eggs, 1 was produced in a wild nest from a captive-laid egg.

Los Angeles Zoo – 8 eggs laid: 1 egg died, 7 nestlings

San Diego WAP – 11 laid: 2 infertile, 2 late-term deaths fertile eggs, 6 nestlings in captivity, 1 egg transferred in April for fostering into a wild California nest; 1 Oregon Zoo egg died at hatching

WCBP Boise – 28 laid: 1 broken, 3 dead, 4 infertile, 20 nestlings

Oregon Zoo – 3 laid, 3 fertile: 1 egg transferred to SDWAP, 2 nestlings

Wild, California – 3 laid: 1 failed to hatch; 1 hatched successfully; 1 failed to hatch and was replaced with a foster captive-laid egg that hatched

Wild, Arizona – 3 laid: 1 failed to hatch (embryo death), 2 nestlings

### Wild Population Statistics, August 1, 2005

#### Releases:

**1988-92:** So. CA – 15 Andean condors released, 1 died, 14 recaptured and released in South America

**1992-95:** So. CA – 13 California condors released in 1992-93: 6 died, 7 returned to captivity permanently

**1995 – ( 2005, through June ):**

#### California Condors Released

	1995	1996	1997	1998	1999	2000	2001	2002	2003	2004	(2005)	Total
California	14	8	12	0	13	9	10	14	5	14	1	<b>100*</b>
Baja CA							0	3	2	3	6	<b>14</b>
Arizona	0	6	13	9	7	12	0	11	7	8	9	<b>82</b>
<b>TOTAL</b>	<b>14</b>	<b>14</b>	<b>25</b>	<b>9</b>	<b>20</b>	<b>21</b>	<b>10</b>	<b>28</b>	<b>14</b>	<b>25</b>	<b>16</b>	<b>196</b>

\*excludes three birds initially released in California in winter 2003-04, recaptured for behavioral reasons 9-10 months after release, and are being re-released into the Arizona population in 2005.

#### Released-bird Deaths

	1995	1996	1997	1998	1999	2000	2001	2002	2003	2004	(2005)	Total
California	0	2	3	3	6	5	4	3	<del>9</del> 9	0	0	<b>35</b>
Baja CA								0	<del>1</del> 1	1	0	<b>1</b>
Arizona		0	3	2	1	11	1	4	1	2	3	<b>28</b>
<b>TOTAL</b>	<b>0</b>	<b>2</b>	<b>6</b>	<b>5</b>	<b>7</b>	<b>16</b>	<b>5</b>	<b>7</b>	<b>10</b>	<b>3</b>	<b>3</b>	<b>64</b>

Of four wild-fledged birds, there has been one death (Arizona bird fledged in 2003, died March 2005)

#### Returned to Captivity Permanently or Indefinitely

	1995	1996	1997	1998	1999	2000	2001	2002	2003	2004	(2005)	Total

#### Wild Production, 2001- 2004

Egg-laying pairs in the wild, California: **2\*** in 2001; **3** in 2002; **1** in 2003; **3** in 2004 (\*one trio with 2 eggs)

Egg-laying pairs in the wild, Arizona: **1** in 2001; **2** in 2002; **3** in 2003; **2** in 2004

Wild-fledged birds, California: **1** in 2004

Wild-fledged birds, Arizona: **1** in 2003, **2** in 2004

Of **18** wild-laid eggs, **1** hatched in captivity and was released to the wild, **10** hatched in the wild (fate of nestlings: 4 fledged, 1 in rehab, 5 died), and **7** eggs failed (broken, died, or fate unknown)

## Explanatory Notes

Numbers reported in the monthly status report should be treated as tentative data. These are based on the best information available each month from cooperators in the field and facilities. If a reporting error is discovered after posting online, no correction will be disseminated, unless the error is substantive. Occasionally, a missing bird will continue to be reported live each month until field personnel are satisfied that there is little likelihood it is still alive. For such individuals, the date last detected normally is presumed to be the date of death. Questions about these data should be directed to Ron Jurek, CDFG, 916-654-4267.

SB# - Condor Studbook number

"CAPTIVE POPULATION" includes:

- birds captured from the wild prior to 1988 that are still in a captive facility (e.g., zoo)
- previously released birds returned to captivity permanently or for care and possible re-release
- surviving chicks and juveniles (excludes eggs laid)
- captive-hatched birds retained for captive breeding
- young birds held in breeding facilities in preparation for transfer to a field pen for release
- "mentor birds" from a captive facility transferred temporarily into a field pen to aid socialization of pre-release birds
- birds transferred from a captive facility to a field pen in preparation for initial release or re-release
- LAZ is Los Angeles Zoo; WAP is Wild Animal Park, Zoological Society of San Diego; WCBP is World Center for Birds of Prey, The Peregrine Fund; OZ is Oregon Zoo

"Released" refers to birds raised in captivity and introduced to the wild; to previously released birds that were translocated to a second population (date of release to the second population becomes the release date for tracking purposes); and to birds captured prior to 1988 that were returned to the wild after 1995.

"Re-released" refers to previously released birds that were re-captured temporarily and held in field pens, or that were re-captured for long-time care or observation in breeding facilities, and that were later returned to their original wild population.

"WILD POPULATION" includes:

- free-flying birds recently accounted for
- free-flying birds, assumed to be alive, although not recently accounted for
- nestlings in wild nests
- temporarily re-captured wild birds, held in a field pen, that are intended to be re-released soon

"So. Calif." refers to birds originally released at sites from San Luis Obispo County to Ventura County by the U.S. Fish and Wildlife Service Hopper Mountain National Wildlife Refuge Complex. Birds released in the two California release areas now freely intermingle.

"Central Calif." refers to birds originally released at sites north of San Luis Obispo County by the Ventana Wilderness Society. Birds released in the two California release areas now freely intermingle.

"Baja Calif." refers to birds originally released in Baja California, Mexico, by the Zoological Society of San Diego, the Centro de Investigación Científica y de Educación Superior de Ensenada, and the Instituto Nacional de Ecología.

"Arizona" refers to birds released by The Peregrine Fund in Arizona and that range in Arizona and other states east of Calif.

Mortalities requiring law enforcement investigation often will not be publicly reported immediately.
